

BIRKENHEAD SCHOOL

Staff Code of Conduct

Birkenhead School expects the highest standards from all members of its community, and particularly its staff and students. This policy applies to all staff and volunteers in the school regardless of their position, role or responsibility. References to 'staff' throughout the policy relate to all of the following groups:

- All members of staff including teaching and support staff
- Volunteers, including governors
- Casual workers
- Temporary and supply staff, either from agencies or engaged directly
- Student placements, including those undertaking initial teacher training and apprentices.

There are a number of relevant policy documents relating to professional expectations and this brief summary should therefore be read alongside the following published documents:

Child Protection and Safeguarding Policy; "Whistle-Blowing" Policy – Raising Concerns; Educational Visits Policies (Seniors and Prep); Anti-Bullying Policy; E-Safety Policy; and various Financial Policies / Guidelines.

It is the responsibility of all staff to ensure that they have read, understand and adhere to all School policies. These are available in the staff handbook on Firefly.

Teachers are also asked to familiarise themselves with the Department for Education's 'Teachers' Standards' and in particular Standard 8 which deals with personal and professional conduct. (<https://www.gov.uk/government/publications/teachers-standards>)

At all times staff are expected to demonstrate consistently high standards of personal and professional conduct and should therefore be excellent role models. This includes being professionally attired at all times and an awareness of the standards of behaviour expected by professional members of the School at all times, including on School trips.

Safeguarding

Staff are reminded that at the heart of all that we do is 'Safeguarding and promoting the welfare of students in our care.' All conduct must be based upon this premise and the fact that the needs of the child are always paramount. With this in mind, staff are asked to regularly remind themselves of the Child Protection and Safeguarding Policy. This policy also assists by protecting members of staff against false or malicious accusations or accusations which may result from misunderstandings. All staff must read and understand Part 1 and Annex A of the Government Guidance 'Keeping Children Safe in Education' for September 2021. [KCSIE 2021](#)

While recognising that there are occasions when one-to-one advice, support or feedback needs to be given to students, staff should protect themselves from allegations of abuse by ensuring these meetings take place during the working day, in school premises where all parties can be clearly seen. In a similar vein, staff should not give lifts to students alone, unless in exceptional circumstances. All efforts should be made to make alternative arrangements, but where exceptional circumstances demand, another member of staff should be made aware of the journey. If staff are transporting students in their personal vehicles, and this is unavoidable, it is incumbent upon the staff member to ensure that they are fully covered by appropriate business insurance. Parent consent should be sought in advance, in writing, and kept on file. In an emergency, parents should be informed as soon as possible after the event.

In the various social interactions which occur at school, or on School trips, staff must ensure that they adhere to the law and to accepted guidelines where the provision of alcohol is concerned.

Staff should not seek to develop or enhance friendships or social contact with students out of School.

Physical Contact

There are occasions when it is entirely appropriate and proper for staff to have physical contact with students, but it is crucial that they only do so in ways appropriate to their professional role. A 'no touch' approach is impractical for most staff and may in some circumstances be inappropriate. When physical contact is made with students it should be in response to their needs at that time, of limited duration and appropriate to their age, stage of development, gender, ethnicity and background.

It is not possible to be specific about the appropriateness of each physical contact, since an action that is appropriate with one child in one set of circumstances may be inappropriate in another, or with a different child. Staff should therefore, use their professional judgement at all times. Staff should be aware that even well intentioned physical contact may be misconstrued by the child, an observer or by anyone to whom this action is described. Staff should never touch a child in a way which may be considered indecent or improper. Always be prepared to explain actions and accept that all physical contact be open to scrutiny. Extra caution should be exercised where a child is known to have suffered previous abuse or neglect. Such experiences may sometimes make a child exceptionally needy and demanding of physical contact and staff should respond sensitively.

Staff supervising PE and games or providing musical tuition should demonstrate the use of a particular piece of equipment/instrument on another member of staff if possible. However, they may be required to initiate physical contact with students/students to support a child to perform a task safely, to demonstrate the use of a particular piece of equipment/instrument or to assist them with an exercise. Contact under these circumstances should be done with the

student/students' agreement, and in an open environment. Staff should remain sensitive to any discomfort expressed verbally or non-verbally by the student/students.

Physical contact must never be secretive, for the gratification of the adult or represent a misuse of authority.

If a member of staff believes that an action could be misinterpreted, the incident and circumstances should be reported to the DSL and recorded. This should be recorded as a 'low-level' concern unless investigated and found to breach the code of conduct or safeguarding policy.

Conflict of Interest

Care should be taken by staff to avoid any conflict of interest between activities undertaken outside school and responsibilities within school. Similarly, they should not assign / accept benefits (e.g. paying own expenses from a School budget) or allocate undue benefits to any family member, friend or colleague (e.g. employment opportunity, training / bonus, hospitality).

Email and E-safety

All staff should be familiar with, and follow, the School's E-Safety policy. Staff should use email professionally, and email should always be factual. Care should be taken when writing about students and ensure that confidentiality is protected. Initials should be used in subject lines wherever possible.

Staff should follow the published protocols when contacting students using electronic media and must not have current students as 'friends' or 'followers' on social network sites. It is inadvisable to have recent (within the last two years) Old Birkonians as friends on Social Media platforms, unless for networking reasons, for example LinkedIn.

Staff must not engage in inappropriate use of social network sites which may bring themselves, the school or the school community into disrepute. Staff should adopt the highest security settings on any personal profiles they have.

Staff should remain mindful of their digital footprint and exercise caution in all their use of social media or any other web based presence they have. This includes written content, videos or photographs and views expressed either directly or by 'liking' certain pages or posts or following certain individuals or groups.

Staff should not use their own mobile devices for taking or storing images of students. The School has devices for this purpose.

Dress and Lanyards

Staff are required to arrive on time and correctly attired for all School commitments as well as in a position to undertake their role (e.g. not under the effect of alcohol/drugs). The wearing of official School lanyards is included in the required attire at all times when on School business, or at School.

Absence and Punctuality

All staff whose contracted hours permit should attend morning briefings on Mondays at 08:20am. All staff must attend Assembly and Form Tutors and Heads of Year/Section must attend Chapel unless express permission has been granted by the Deputy Head in Seniors or Deputy Head of Prep. Staff need to be on time for changeover of lessons and all duties.

Lateness can result in health and safety risks. Staff must inform the Deputy Head Academic in Seniors or the Deputy Head in Prep, in advance if they are going to be absent or late for their duty and, where possible, they should arrange a swap with another colleague.

Staff are required to attend all relevant meetings including Parents' Evenings and Open Days/Evenings. There are 5 INSET days per year; September INSET days have required attendance from all staff regardless of contracted hours. Twilight meetings and Staff Training should be attended as stated in the 'Staff Training and Staff Meeting Policy'. Teaching staff are also expected to play their part in the wider academic and co-curricular life of the School, this is reflected in the salary of all teaching staff.

Form Tutors must ensure that notices in the Day Book are read out to students in the morning and in afternoon registration. All staff should ensure that registers are taken after lunch in Seniors.

Any request for a period of absence should be made to the relevant SLT member (or manager in the case of some support staff). Any unavoidable absence should similarly be reported to the same people as soon as possible and work must be provided for students in the absence of a teacher. A return to work interview with the relevant manager must take place on the day of return.

Confidentiality

Members of staff may have access to confidential information about students/students, their parents/carers or their siblings. Staff must not reveal such information except to those colleagues who have a professional role in relation to the student/student on a need to know basis.

Staff should never use confidential or personal information about a student/student or her/his family for their own, or others' advantage (including that of partners, friends, relatives or other organisations). Information must never be used to intimidate, humiliate, or embarrass the student/student.

Staff should take care in protecting the data they hold by using School laptops for school business. Staff should take care of personal data, such as exercise books or exam papers by not leaving them in public places, or high risk areas (such as in the car overnight).

Memory Sticks, portable hard-drives and other transferable media should not be used. If essential, this should be done with the support of the IT Team.

All aspects of the GDPR policy should be followed, including following email protocols that retain the confidentiality of parents addresses and student information.

General

All staff are expected to uphold the good reputation of Birkenhead School in their communications both within School and as part of the wider community and should not bring the name of the School into disrepute. This naturally includes comments made or shared on social media.
